PROFESSIONAL SUMMARY

Recent Bachelor of Computer Applications graduate with a strong foundation in **Python programming, Django, full-stack web development, SQL, MySQL, database management, and REST API integration**. Seeking an opportunity to apply technical knowledge and problem-solving abilities in a Python Developer or Full Stack Developer role. Experienced in developing responsive web applications using **HTML, CSS, JavaScript, Bootstrap, and Python-based frameworks**. Familiar with Git, GitHub, CRUD operations, Object-Oriented Programming, and database-driven application development. A quick learner with strong analytical and debugging skills, eager to contribute to a collaborative development team while continuously expanding technical expertise.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, C, PHP, JavaScript, SQL
- **Web Technologies:** HTML5, CSS3, Bootstrap, Django, React.js (basics), Node.js (basics)
- **Databases:** MySQL, MongoDB, Database Design
- **Tools & Platforms:** VS Code, Git, GitHub, PyCharm, Eclipse, MS Office Suite
- **Operating Systems:** Windows, Linux (Ubuntu)

PROFESSIONAL EXPERIENCE

Web Development Intern

SMEC Technologies, Kochi

- Engineered scalable backend systems with Django and MySQL, delivering clean, maintainable architecture for reliable data workflows and business logic implementation.
- Optimized query performance and eliminated database bottlenecks, reducing backend response time by 60-70% and improving overall system efficiency.
- Developed modular REST API endpoints with comprehensive form validation, role-based access control, and reusable business logic components.
- Managed deployments across Git, GitHub, Docker, Postman, and AWS infrastructure, streamlining CI/CD pipelines and accelerating release cycles.
- Enhanced team collaboration through structured code reviews, pair programming, and adherence to best practices in version control and documentation.

PROJECTS

Online Veterinary Appointment System (Academic)

Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a web-based veterinary appointment platform for browsing veterinary services and booking appointments online.
- Implemented service categories, appointment scheduling, responsive web interfaces, and an admin dashboard.

Secure File Upload & Sharing Platform

Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap

- Built a secure file sharing platform with password-protected downloads, download count limits, and time-based link expiration to prevent unauthorized or indefinite file access.
- Prevented path traversal and filename collision vulnerabilities by generating randomized storage filenames while preserving original filenames for users.
- Enforced file size restrictions and server-side upload validation to protect against abuse and oversized uploads.

EDUCATION

Bachelor of Computer Applications (BCA) | 2023 – 2026

- Web Development focused on Python programming, databases, software development, and application design.

Python Full-Stack Development | 2026

- Focused on hands-on training in Python, HTML, CSS, JavaScript, React.js, backend development, SQL, API integration, and Git.

CERTIFICATIONS

- **Python Full-Stack Development** — Professional Development Program (2026)
- **Project Completion Certificate** — Academic Project Certificate in Python Django Development.

LANGUAGES

- English.
- Malayalam.
